

## **WIKI PROJECT GRADING:**

### **Discussion Board Participation--30 points**

You should be communicating with your out-of-class group members almost daily on the discussion board. Let them know what you have gotten done, anything you need them to do, or to look over what you have added to the page.

Ask questions through the help page discussion board and respond to others' problems when appropriate.

### **Peer Review—60 points**

This will be your grade from your fellow group members. Do your work and be helpful.

### **Use of Class Time—30 points**

Spend your class time doing research, writing, and editing the pages. Do not get caught on unrelated websites. Do not spend time talking to classmates about topics other than this project. This will be graded harshly. I will deduct points each time I observe off task behavior.

### **Quality and Accuracy of Web Page—180 points**

\_\_\_/30 Thorough and accurate background information

\_\_\_/15 Thorough and accurate list of talents

\_\_\_/15 Thorough and accurate list of weaknesses

\_\_\_/20 Retelling of myth (not copied or otherwise plagiarized)

\_\_\_/50 Multimedia presentation of related information

\_\_\_/20 Ten-line poem reflecting several relevant facts and events related to the character

\_\_\_/30 At least four references cited in MLA format (**NO PART OF THE PROJECT WILL BE GRADED IF A REFERENCE SECTION IS MISSING**)

**\*\*\*You may not necessarily get the same grade on the web page as your group members. If you fail to participate in discussion, get an adequate peer review, use class time responsibly, and/or appear as a significant editor of the web page, you will not be awarded the full amount of points earned by your group members' work.**
